LUBRIPLATE CHAIN & CABLE FLUID

Industrial Strength Penetrating Fluid

* * * * *

"MAGIC" IN A CAN

* * * * *

LUBRIPLATE Chain & Cable Fluid is a lubricating, penetrating and cleansing fluid designed for a multitude of applications. This product will not produce a dry surface; it will maintain a moist film. This unique film, however, will not pick up dust and dirt, but rather acts as a cleansing agent. In the lubrication of wire rope, it is essential not only to protect the outside of the wire, but also to penetrate into the strands to lubricate and reduce friction between these strands and to lubricate and protect the inner core from rust and corrosion. The same basic principles also apply to the lubrication of roller chains -- the required penetration, cleansing and lubrication of the inside of the links is vital in addition to the outside protection and lubrication. LUBRIPLATE Chain & Cable Fluid performs all of these functions most successfully.

Typical Tests

LUBRIPLATE CHAIN & CABLE FLUID

Viscosity SUS @ 100°F	150
cSt @ 40°C	32
Viscosity SUS @ 210°F	45
cSt @ 100°C	6
ISO Grade	32
SAE Grade	10
Flash Point °F/°C	310/154
Fire Point °F/°C	350/177
Pour Point °F/°C	-40/-40
Color	L-4.0
API Gravity	23.0

Packaging Available

	<u>Part No.</u>
Carton, 4/7 lb. Plastic Jugs	L0135-007
Carton, 12/2 lb. Plastic Bottles	L0135-013
35 lb. Pail	L0135-035
120 lb. Drum	L0135-039
415 lb. Drum	L0135-040
Carton, 12/12 oz. Aerosol Spray Cans	L0135-063

SUCCESSFUL TYPICAL APPLICATIONS
FOR
LUBRIPLATE CHAIN & CABLE FLUID

1. Lubricating wire rope on Gantry cranes of large shipbuilding yards involving very severe service, salt air, and salt water. The end results are very outstanding. Greatly extended wire rope life, less downtime, and usage cut to approximately 50% of product previously used.
2. On a cross-country motorcycle - 24-hour endurance race, through mud, water, dust, dirt, and heat, the first three cycles to finish were all lubricated with LUBRIPLATE Chain & Cable Fluid. Also, they were the only contestants that finished the race without breaking any chains.
3. Plus many other applications, including:
 - * A general-purpose lubricant for vending machines and sewing machines.
 - * Speedometer cable and housing - penetrates, creeps and softens grease as well as lubricates.
 - * Control cables, latches, pins etc., on concrete trucks - penetrates concrete and frees metal parts.
 - * Door Locks - Frees frozen door locks.
 - * Nut Busting, prevents rusting.
 - * As a spray lubricant and coolant for cutting operations on machine tools; threading, drilling, tapping, pipe cutting, sawing, filing.
 - * Penetrates and lubricates equipment components exposed to adverse conditions; salt, road grime, rust and corrosion, plus many other contaminants.
