

ORDERING INFORMATION SHEET

How to Order a MEMOLUB® High Pressure Lubricator

There are two steps to ordering a new MEMOLUB® lubricator :

Step 1 - Choose the model and size of the MEMOLUB® lubricator

Models

MEMOLUB® HPS - This model is battery powered and the lubricant output is programmed using the simple MEMO system. A completely self-contained lubricator.

MEMOLUB® EPS - This model allows you to utilize a local power source to operate the lubricator. It is available in a 24VDC model and also uses the MEMO system to control the lubricant output.

MEMOLUB® PLCD - This model gives you total control over the lubrication process. The lubricator connects directly to your PLC which powers the unit and controls the lubricant output cycles. Can be synced to your machine requirements.

Sizes

All MEMOLUB® high pressure lubricators are available in three lubricant reservoir sizes and can be filled with oil or grease (up to NLGI #2) :

120cc (approximately 1/4 lb)

240cc (approximately 1/2 lb)

480cc (approximately 1 lb)

Part Number Format

Power Lube Industrial, LLC

4930 S. 2nd St. Ste 300

Milwaukee, WI 53207

800.635.8170 Toll-Free

414.727.8170 Local

414.727.8171 Fax

www.powerlubeind.com

Example :

To order a new MEMOLUB Model EPS 24VDC lubricator with a 480cc reservoir, the part number would be "MLEPS480-24V".

This part number does not include a lubricant cartridge or battery pack - See Step 2.

ORDERING INFORMATION SHEET

Step 2 - Order the Lubricant Cartridge Kit for the MEMOLUB® lubricator

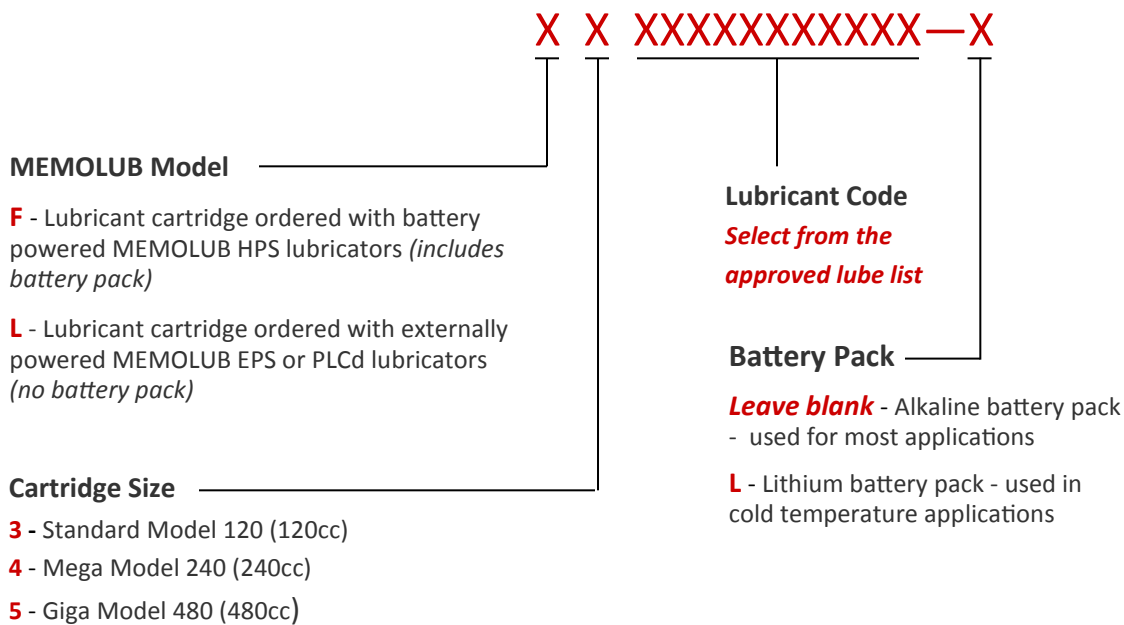

The cartridge kit is sold separately from the lubricator due to the fluctuating cost of lubricants.

Power Lube Industrial stocks over 200 lubricants to meet your equipment requirements. Our Lube List is constantly changing so if your lubricant is not listed please give us a call.

Cartridge Kit

Part Number Format

Example :

When ordering a lubricant kit for a new MEMOLUB Model 240EPS lubricator filled with Mobilith SHC634, the part number would be: **“L4MOBSHC634”**

Grease filled cartridges:

Grease cartridges and battery packs (if required) are pre-loaded in the MEMOLUB® lubricator prior to shipping.

Oil filled cartridges:

Oil cartridges and battery packs (if required) are packaged separately from the MEMOLUB® lubricator to prevent accidental leakage during shipping.
