

## Almagard® Vari-Purpose Lubricant 3750 - 3752

*Long-lasting Red Grease Stays Put & Runs Cool*

Customers who rely upon Almagard Vari-Purpose Lubricant appreciate its cool-running, long-lasting, water-resistant performance. It dramatically lengthens grease intervals, eliminates bearing failures, can extend bearing life by up to threefold, and does not harden with age.

Recommended for extended service applications, Almagard is extremely tacky and will not wash off, pound out or melt and run, even in severe conditions. It is ideal for on-and off-road equipment where high impact occurs, as well as many in-plant applications.

**Lubrication Engineers operates under an ISO 9001 Certified Quality System.**
